PROFESSIONAL SUMMARY

Electronics & Telecommunication Engineering graduate with 6+ years of business operations and retail management experience. Currently transitioning into Data Analytics, Business Analytics, AI Automation and Generative AI. Skilled in Python, SQL, Excel, Tableau, Power BI, Data Analysis and workflow automation using n8n. Proven track record of driving business growth, managing teams, optimizing inventory, analyzing business data and implementing customer retention strategies.

TECHNICAL SKILLS

Programming: Python, SQL, MySQL

Analytics: Pandas, NumPy, Data Cleaning, Data Visualization

BI Tools: Excel, Tableau, Power BI

Automation: n8n, Webhooks, AI Workflow Automation

Other: GitHub, Business Analytics, Inventory Analytics, CRM, Team Management

PROJECTS

AI Resume Analyzer Workflow

Built an AI-powered resume analysis workflow using n8n, webhooks and database integration. Automated resume parsing, ATS analysis and recommendation generation.

GitHub Repository:

https://github.com/Narendrafulwaria/N8N_project_Resume_analyzer_Webhook

Leave Management Automation System

Developed an automated leave management workflow integrating Telegram, Google Sheets and Gmail. Automated leave request processing and notification management.

GitHub Repository:

https://github.com/Narendrafulwaria/N8N_leave_management_Telegram_sheets_gmail

AI Leave Management Chatbot

Designed a chatbot-based HR automation solution to streamline employee leave applications and workflow management.

GitHub Repository:

https://github.com/Narendrafulwaria/N8N_project_Leave_management_chatbot_based

Python Analytics Portfolio

Built Python projects covering data structures, business analytics, inventory management, functions, modules and analytical problem solving.

GitHub Repository: <https://github.com/Narendrafulwaria/-Python-Projects>

SQL Analytics Portfolio

Developed SQL solutions using joins, subqueries, CTEs, aggregations and window functions to solve business reporting and analytics problems.

GitHub Repository: https://github.com/Narendrafulwaria/MySQL_Queries

PROFESSIONAL EXPERIENCE

Business Operations Manager | Bhawani Supermart | 2020 – Present

- Built and scaled a family-owned retail grocery business from inception.
- Increased daily customer footfall from 250 to 400 through targeted promotional campaigns.
- Achieved approximately 75% growth in daily sales through customer retention and loyalty initiatives.
- Managed procurement, inventory control, merchandising and replenishment operations.
- Led and supervised a team of 5 employees across customer service and store operations.
- Implemented data-driven pricing, seasonal promotions and stock optimization strategies.

Fresh Fruits & Vegetables Operations | 2023 – Present

- Established and managed a dedicated fruits and vegetables department.
- Tracked shelf life, spoilage rates and inventory turnover to reduce waste.
- Maintained fresh inventory availability while optimizing procurement costs.
- Improved visual merchandising and customer purchasing experience.

EDUCATION

Bachelor of Engineering (Electronics & Telecommunication)

Ramrao Adik Institute of Technology, Mumbai University (2019)

Higher Secondary Certificate (HSC) – Swami Vivekanand High School (2015)

Secondary School Certificate (SSC) – Adarsha Vidyalaya School (2013)

CERTIFICATIONS

- • AI Fundamentals & Ecosystem Mastery – Be10X
- • AI Product Building, Storytelling & Marketing – Be10X
- • AI Agents & Autonomous Systems – Be10X
- • Career Readiness Using AI – Be10X
- • AI Career Accelerator Program (6 Months) – Be10X (Certificate of Mastery)
- Capstone Project – AI Career Accelerator Program – Be10X (Certificate of Mastery)
- Cricket Analytics Advanced Masterclass – Mad About Sports & Rajasthan Royals (May 2023)
- Data Analytics with AI & Generative AI – IIT Roorkee & Masai (In Progress)

KEY ACHIEVEMENTS

- Successfully transitioned from business operations into Data Analytics and AI upskilling.
- Built multiple GitHub projects demonstrating analytics, automation and SQL capabilities.
- Managed end-to-end retail operations for over six years.
- Led business growth initiatives that significantly improved customer acquisition and revenue.
